Another bum attraction at the opera house last Tuesday night, Helen May Butlers Band. All nice young ladies, seemingly, but they couldn't play music—not on horns. Okolona is unfortunate in getting such "distractions" but when one never saw a good troupe play how can he select good ones for a town.

The W. F. Tucker Chapter was delightfully entertained by Mrs. Tom Buchanan on Thursday afternoon. A "Sewing Bee" was the plan of amusement. Mrs. Edgar Elliott was visitors prize and Mrs. Edgar Parchman the membership prize. Delicious refreshments were served.

They say that more than half the women who visit the high priced health or society resorts about the country go on life insurance money. But the present life insurance scandals will certainly cripple these women; the scandals will discourage husbands from taking out policies. The next crop of rich widows will be considerably lighter. But don't grumble at the rich widows. They should be welcome to their money. If women have sense enough to take care of themselves, and live longer than men, they are entitled to all they get. The large number of rich widows should finally set the men to thinking, and cause them to eat and drink less.

They play for the benefit of the K. of P's tonight.

The most deadly instrument known to man, is the human tongue. Dynamite is not in it as a trouble breeder. It is the hair trigger of the vicious. The less brain back of it the freer action. It goes off on the slightest provocation. It strikes heavier blows than a prize fighter or a mule kicking down hill. It causes more heartaches than a tax collector. A tongue can make a sore spot for years. The crimes chargeable to the tongue are criticism, unkindness, gossip, lying, scandal, malice and hate. The aggregate of sorrow and murder.

People are kicking because the mail train is about two hours late every Sunday. That brings it into town just when the people are eating dinner and they are robbed of the pleasure of going to the depot to see the "train go through."

### That New City Policy.

Lights all night! That is one of the many new improvements promised us shortly by the city council. Not satisfied to have made the best walks any city in Mississippi has, they are improving the city in every way possible. They are now receiving bids from several big electrical houses to so improve the lighting facilities that a continuous current runs all over town. New incandescent and arc lights are to be put in where several are badly needed now in different parts of town. A contract has been made with the M. & O. officials to light the entire yards and buildings of that company. Many other modern and much desired improvements are under advisement and will shortly be announced.

Take your cotton to the Okolona Cotton Oil Mill for ginning. You never have to wait and you get the most gentlemanly treatment.
